

## The Control Feature-Set

The **Control Feature-Set** maximizes system integration and programming security:

- **RS232** and **Discrete IR** input connectors simplify control functions (Models 2310HD, 3220HD and 4610HD)
- The **Concealed IR Emitter** is located in the cable-entry compartment, thus protecting it from the elements (Models 3220HD and 4610HD)
- **Remote Control Lock-out** prevents unauthorized users from changing the programming (All Models)
- **Sleep Mode** automatically turns the TV to the Off mode when the signal is removed, and turns it back to On when the signal is restored (All Models)

**866.357.8688**
